

Revolutionary Approach

Culper isn't interested in just putting money to work. We seek to revolutionize the meaning of private equity by working with our trusted portfolio companies to drive value for customers, employees, the community and shareholders alike.

Culper Capital Partners is focused on partnering with businesses with solid fundamentals and niche value drivers.

We provide value-added strategic solutions in order to enhance returns and position companies for sustainable growth. We utilize our private capital, along with that of our business partners, in order to find bespoke equity, debt or hybrid capital opportunities to drive value for our partners and our portfolio companies.
